## **Bariatric Searches:**

Please find detailed below information about the searches, check population reporting Distributed folder for latest version:

- ML DQ ICB Bariatric LES 2026-27 v1.0
  - ACTION Bariatric Surgery LES
  - CLAIMS Bariatric Surgery LES
  - Invites Bariatric Surgery LES
  - xBI Reports

All the searches work on the assumption that relevant codes have been added to the patients record from the template 'ML ICB Local Enhanced Services'.

## **Action folder:**

**Midlands and Lancashire CSU**

- 
- 🔍 BADQ1 Bariatric Follow up RECALL
    - 🔍 Bariatric EXTRAS (on Recall and not Register)
    - 📅 Bariatric EXTRAS (on Recall and not Register)
  - 🔍 BADQ2 Bariatric Follow up REGISTER (excluding removals)
    - 🔍 Bariatric EXCLUSIONS (On Register and not on Recall)
    - 📅 Bariatric EXCLUSIONS (On Register and not on Recall)

These searches will give you a robust recall system, they can be used to find patients to invite in for a review. They will need to be run and actioned especially the EXTRA & EXCLUSION results as these searches will find patients that need ACTION to be completed before the invite search is run to ensure the correct patients are being invited into clinic.

The other search in the Action folder is to help find data quality issues like incorrect coding/consultation type.

### **Invites folder:**

- 
- 🔍 Bariatric Invites
    - 📅 Bariatric Invites
  - 🔍 Bariatric Overdue Invites
    - 📅 Bariatric Overdue Invites

The invite searches are linked to the RECALL search; this search looks for the diary entry of 'Bariatric Surgery Follow-up' it gives you the option to specify the DUE date of patients you are wanting to invite into clinic.

The Overdue search allows you to put in past dates that may still be in patient diaries this could be due to the diary date not being moved on or the patient has not attended for review and check.

### **Claims folder:**

This search identifies patients for claims and has been designed to mirror the Claims template.
