

## ML DQ DIABETES LES GUIDE

### ML ICB LOCAL ENHANCED SERVICES TEMPLATE

A ‘**Diabetes**’ page has been created in the **ML ICB Local Enhanced Services** template to provide the correct coding for capturing those patients where GLP1s or Insulins have been initiated, or patients have received ongoing care while on Insulin:

Diabetes

CLAIM CODES

**Initiation of Injectable GLP1**  
 A payment for initiating patients on an injectable GLP1 is payable from 25-26 onwards. For this activity to count towards the LES Incretin mimetic therapy started must be ticked.

**TICK THIS BOX TO ENSURE THE PATIENT IS INCLUDED IN THE CLAIMS FOR INITIATION OF INJECTABLE GLP1**

Incretin mimetic therapy started    *Text*     No previous entry

**Initiation of Insulin**  
 A payment for initiating patients on insulin is payable from 25-26 onwards. For this activity to count towards the LES either the Insulin treatment initiated OR Insulin initiation enhanced services administration must be selected.

**TICK THIS BOX TO ENSURE THE PATIENT IS INCLUDED IN THE CLAIMS FOR INITIATION OF INSULIN**

Insulin treatment initiated        No previous entry  
*Text*

**Ongoing care of patients on Insulin Therapy**  
 A payment for ongoing care of patients on insulin can be claimed in the financial years following the initiation. This activity is not payable in the same financial year as the initiation of insulin. For this activity to count towards the LES BOTH Enhanced services administration and Diabetic on insulin must be ticked and coded on the same day.

**TICK BOTH BOXES TO ENSURE THE PATIENT IS INCLUDED IN THE CLAIMS FOR ONGOING CARE**

Enhanced services administration    *Text*     22-May-2025    [»](#)

Diabetic on insulin    *Text*     No previous entry

*If you are undertaking the activity for a patient that is not permanently registered with your practice please also complete the temporary registration section.*

Temporary registration    *Text*     No previous entry

### SEARCHES

All searches for the Enhanced Services can be found in the distributed searches folder in Enterprise Searches & Reports.

All the search's work on the assumption that relevant codes have been added to the patients record from the template ‘ML ICB Local Enhanced Services’.

- 📁 ML DQ ICB Diabetes LES 2025-26
  - ▶ 📁 .COHORTS Diabetes LES
  - ▶ 📁 ACTION Diabetes LES
  - ▶ 📁 CLAIMS Diabetes LES
  - ▶ 📁 xBI Reports

## .COHORTS Diabetes LES

These searches should help you identify patients that may be eligible for activities under the LES.

 Linked

-  1. Unstable Diabetics potentially eligible for Insulin Initiation
  -  Unstable Diabetics potentially eligible for Insulin Initiation - List Report
-  2. Unstable Diabetics potentially eligible for GLP1 Initiation
  -  Unstable Diabetics potentially eligible for GLP1 Initiation - List Report
-  3. Pts on insulin last 12m potentially eligible for ongoing care
  -  Pts on insulin last 12m potentially eligible for ongoing care - List Report

## ACTION Diabetes LES

These searches should be actioned before the CLAIMS searches are run to ensure that patients are identified correctly.

- 
-  DMDQ1 Initiation of Insulin - check consultation type
    -  DMDQ1 Initiation of Insulin - check consultation type
  -  DMDQ2 Initiation of Injectible GLP1 - check consultation type
    -  DMDQ2 Initiation of Injectible GLP1 - check consultation type

    -  DMDQ3 Ongoing Care for patients on Insulin Therapy - check consul...
  -  DMDQ4 Secondary care pts excluded from Initiation of Insulin claims
    -  DMDQ4 Secondary care pts excluded from Initiation of Insulin claims
  -  DMDQ5 Secondary care pts excluded from Initiation of Injectible GLP1 ...
    -  DMDQ5 Secondary care pts excluded from Initiation of Injectible GL...
  -  DMDQ6 Secondary care pts excluded from ongoing care claims
    -  DMDQ6 Secondary care pts excluded from ongoing care claims

DMDQ1-3: Patients with claim code but not relevant consultation type.

**ACTION:** If you find any activity in the Action/Check Consultation Type searches that should count towards claims, add a new consultation to the patient's record (on the same date as the excluded one) using an acceptable consultation type and the correct claim / procedure codes. This keeps the original consultation unchanged and ensures the patient appears in the claims searches.

DMDQ4-6: Patients with claim code but appearing as under secondary care.

**ACTION:** Review patients and **add 92782100000100 Discharge from secondary care diabetes service** if their care is now based in primary care or **1856641000006109 Diabetes monitoring in primary care** if their care is also provided by primary care.

## CLAIMS Diabetes LES

These are your claims searches.

- 🔍 1. Initiation of Insulin
  - 📄 CLAIMS Initiation of Insulin - YTD by month
  - 📄 FOR CHECKING Initiation of Insulin - List Report
- 🔍 2. Initiation of Injectable GLP1
  - 📄 CLAIMS Initiation of Injectable GLP1 - YTD by month
  - 📄 FOR CHECKING Initiation of Injectable GLP1 - List Report
- 🔍 3. Ongoing care for patients on Insulin Therapy
  - 📄 CLAIMS Ongoing care for patients on Insulin Therapy - YTD by month
  - 📄 FOR CHECKING Ongoing Care for patients on Insulin Therapy - List R...

The codes needed for patients to be identified by the searches can be found on the Diabetes page of the ML ICB Local Enhanced Services template however, for reference:

### Initiation of Insulin:

Insulin treatment initiated (345041000000106) **OR**  
Insulin Initiation enhanced services administration (344641000000106)

### Initiation of GLP1:

Incretin mimetic therapy started (702542006)

### Ongoing care for patients on Insulin Therapy:

Enhanced services administration (166221000000105) **AND**  
Diabetic on Insulin (170747006)

## xBI Reports

These reports form part of a number of reports that get collated and sent to ML Business Intelligence to form the dashboard.
