All the search's work on the assumption that relevant codes have been added to the patients record from the template 'ML DQ ICB Enhanced Care Home LES'.

ACTION Enhanced Care Home Services LES

This folder contains searches which identify patients who have missing key activity for the care home LES. The key items are – Personalised Care and Support Plan (PCSP), Preferred Place of Death, Structured Medication Review (L6m), MDT meeting, Psychosocial assessment, falls risk assessment, frailty Rockwood scoring and Delirium assessment for acute confusion patients,

Whilst these searches will not affect your payments, the ICB are monitoring this information and would like to see an increase in the key items recorded.

Using the ML DQ ICB Enhanced Care Home LES template will ensure you are using the codes captured within the searches.

DQCH01 Identifies patients with a suggested care home residence code but does not have their latest residential status as one of the codes to the right.

ACTIVITY Enhanced Care Home LES

These searches identify the number of patients who have the appropriate code added to their record (ever) for the key items being monitored as part of the LES.

Whilst these searches will not affect your payments, the ICB are monitoring this information and would like to see an increase in the key items recorded.

Using the ML DQ ICB Enhanced Care Home LES template will ensure you are using the codes captured within the searches.

There is an additional folder which identifies those patients who have received an appropriate code in the last 12 month (instead of ever). The ICB will also be monitoring this.
