HRDMSCDQ1 Identifies patients who have had more than 1 HRD Shared Care coded on the same day

HRDMSCDQ2 Identifies patients who have had an HRD Shared Care coded within 7 days of a previous HRD Shared Care

HRDMSCDQ3 Identifies patients who have been coded as HRD Shared Care Monitoring but have not had a High Risk Drug issued

HRDMSCDQ4 Identifies patients who have been issued a High Risk Drug but have no High Risk Monitoring Code

ACTION Recall Shared Care:

-  Shared Care RECALL
-  Shared Care EXTRAS (on Recall and not Register)
-  Shared Care EXTRAS (on Recall and not Register)
-  Shared Care REGISTER
-  Shared Care EXCLUSIONS (On Register and not on Recall)
-  Shared Care EXCLUSIONS (On Register and not on Recall)
-  Shared Care REGISTER Auto Report

These searches will give you a robust recall system, they can be used to find patients to invite in for HRD Monitoring. They will need to be run and actioned especially the EXTRA & EXCLUSION results as these searches will find patients that need ACTION to be completed before the invite search is run to ensure the correct patients are being invited into clinic. The Shared Care Register Drug List Auto Report shows types of Monitoring codes and the drugs for each patient on the Shared Care Register.

 -  Shared Care Invites - Overdue Reviews
 -  Shared Care Invites - Overdue Reviews

Linked to the RECALL this search looks for the Diary entry High Risk Drug Monitoring – Shared Care (this financial year High Risk Drug Monitoring – Primary Care is included). These searches give you the option to specify the DUE date of patients you are wanting to invite into clinic. The Overdue search allows you to put in past dates that may still be in patient diaries this could be due to the diary date not being moved on or the patient has not attended for review and check.

ML DQ Checks High Risk Drugs

-  2nd generation antipsychotic drugs

-  Dapsone monitoring
-  Dapsone monitoring Auto Report

Midlands and Lancashire CSU

These searches show the individual drugs included in High Risk Drug Monitoring and how many patients are being issued these drugs within your Practice. The reports give a break down of the required monitoring for each drug and the latest monitoring each patient has received. Along the latest High risk drug monitoring code.

CLAIMS folder:

This search identifies how many patients have had the appropriate coding added from the template for a High Risk Drug Shared Care Monitoring. The aggregate report gives a monthly count of SMR clinical codes.
