### **CLAIM Simple Wound Care LES**

These searches identify and patient list report show how many patients have had the appropriate coding added from the template.

There is also an aggregate report consisting of all the various searches and codes that details the number of codes that have been added each month (a patient may have more than 1 episode of the code).

Please note these searches have consultation types applied to them. Activity must be recorded using the appropriate consultation type. Searches can be found in the action folder to identify any not using an appropriate consultation type.
