ML DQ SIMPLE WOUND CARE LES GUIDE

ML ICB LOCAL ENHANCED SERVICES TEMPLATE

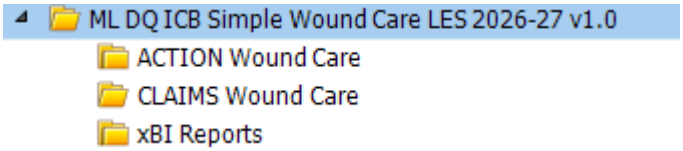

A page has been created on the Local Enhanced Services template (**ML ICB Local Enhanced Services**) to provide the correct code for capturing those patients where wound care services have been provided.

SEARCHES

All searches for the Enhanced Services can be found in the distributed searches folder in ES&R.

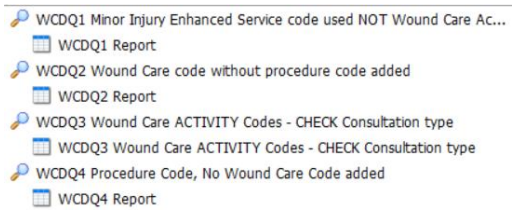

Please find detailed below information about the searches:

All the search's work on the assumption that relevant codes have been added to the patients record from the template 'ML ICB Local Enhanced Services

ACTION Simple Wound Care LES

Please ensure you have run and actioned these searches for it you don't you may be missing out on entries you could claim activity for.

WCDQ1: Identifies patients incorrect activity code.
A**CTION**: Review and add activity code, if relevant.

225358003 Wound care

WCDQ2: Identifies patients wound care activity code, no procedure code (on same day). **ACTION**: Review and add procedure code, if relevant.

WCDQ3: Identifies patients with activity code but not relevant consultation type.
ACTION: Review patients and change to **GP Surgery** consultation type, if relevant.

WCDQ4: Identifies patients with procedure code, no wound care activity code (on same day). **ACTION**: Review and add wound care code using the ML DQ Local Enhanced Services template, if relevant.

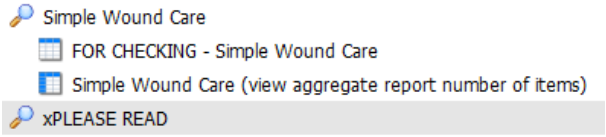

The searches use the following codes and checks that one of them is entered on the same day as the wound care code and highlights those that are not. In order to claim for simple wound care activity BOTH codes need to be entered on the same day.

Code	Description
225358003	Wound Care

AND one of the codes from below entered on the same day

Code	Description

302410007	Primary suture of skin
302414003	Removal of clip from skin
302415002	Removal of suture from skin
302412004	Secondary suture of skin
258531008	Wound Swab
385941006	Wound Care Assessment

CLAIM Simple Wound Care LES

These searches identify and patient list report show how many patients have had the appropriate coding added from the template.

There is also an aggregate report consisting of all the various searches and codes that details the number of codes that have been added each month (a patient may have more than 1 episode of the code).

Please note these searches have consultation types applied to them. Activity must be recorded using the appropriate consultation type. Searches can be found in the action folder to identify any not using an appropriate consultation type.

xBI Reports

Midlands and Lancashire CSU

These reports form part of a number of reports that get collated and sent to ML Business Intelligence to form the LES Monitoring Report.
